STOUT STATE UNIVERSITY - MENOMONIE, WISCONSIN 54751

FALL

1970

# A Bright Future From a Dim Past

Ray is 48 years old. For the past 27 years he was a patient at the Dunn County Hospital and the chances were good that he would spend the rest of his life there. Yet today, Ray is out of the hospital and supporting himself in a useful job.

Ray's new life is partially the result of efforts by graduate students in Vocational Rehabilitation at Stout State University. For two hours of graduate credit, students spend six hours a week at the hospital evaluating patients and helping them prepare to return to a normal life.

"The problem in the past is once patients were admitted to the hospital people forgot about them," explained Dr. Walter Pruitt, Director of Graduate Training in Vocational Rehabilitation at Stout. He pointed out that through this cooperative program between the hospital and the University, students can gain practical experience in vocational rehabilitation and many patients can be released into useful jobs.

Ray provides a dramatic example of how patients can be helped through the program. A victim of an automobile accident at age ten, Ray was destined to suffer epileptic seizures for the rest of his life. Shortly after the accident he dropped out of the third grade and never completed his education. His jobs consisted mainly of farm chores, but he was frequently out of work. As a teenager he had problems with the police, and at 20, he was committed to the Northern Colony state institution. At that time he was thought to be mentally deficient. Later, when epilepsy was discovered to be the chief cause of his problems, he was placed in the Dunn County Hospital.

Since that time, medicines have been developed to help epileptics lead normal lives. However, by then Ray had spent most of his adult life in an institution and was not equipped to return to society.

What could have been a bleak picture began to change in 1968 when Stout began its cooperative program with the hospital. Working with students and the Division of Vocational Rehabilitation — a government agency, Ray was given extensive tests. He was found in good health and with a reasonable amount of intelligence. The students also found that he worked dependably at his job in the hospital kitchen and got along well with other people. He enjoyed square dancing and going to town to buy things for himself.

The tests were followed by a thorough program of counseling and extended therapy. Nine months later he was placed in a nursing home as an orderly, learning and getting paid on the job. Today he is considered a full-

time employee of the nursing home, administering his own money and independent of the hospital.

The type of help given to Ray is typical of the kind vocational rehabilitation students are now giving to many patients at the Dunn County Hospital. Although success is not so dramatic in every case, patients who are mentally and emotionally capable of being released from the hospital are now being rehabilitated through the program.

Each student in the program is assigned to three patients at the hospital. "Essentially their responsibility is the vocational evaluation of the patient, therapy, testing and observing the patient at work," Pruitt said.

In addition to working with their patients, the students are also involved in "special projects." One project consists of setting up a workshop where patients assemble and package powdered milk shakers. Under a contract with a dairy firm, the patients handle all aspects of the job including shipping, storage, inventory and production. In turn the patients receive an hourly wage, prorated to their individual ability.

Pruitt said the purpose of this is to aid the patients in work adjustment. "It helps develop habits for successful employment," he said.

In another project, students canvassed Dunn County finding jobs patients might fill and determining attitudes employers might have toward hiring the patients.

Other projects include a prevocational unit, where patients can benefit from job assignments; job analysis; public relations; and in-service training for the hospital.

Sam was 60 years old when students began working with him. He had spent the last 32 years in mental institutions. Working mainly as a farm hand at the Dunn County Hospital, he was quiet and withdrawn, although he was considered a good worker.

With only a grade school education, Sam spent his younger life working as a laborer and a part-time

Walter Pruitt

Elliot Crego

mechanic. In 1935 he was severely injured in an automobile accident. Several years later he and his wife were separated, causing him to have an emotional breakdown.

Students began to work with him in early 1969. He, too, was given counseling and testing. Work evaluation sessions were conducted for him in one of the hospital workshops and during a formal two-week evaluation period.

He was referred to the Division of Vocational Rehabilitation and was later given job tryouts in the hospital's maintenance department. In May of 1969 the hospital's social services department placed him as a permanent farm worker on a private farm. His starting salary was \$400 a month, plus room and board. Since then he has received a raise.

Today, reports are that Sam is treated as a member of the farm family. He takes the children fishing and participates in family social and recreational activities.

Barbara is another patient who has been a part of the student evaluation program. She entered the hospital in 1969 and students began working with her that same year. Although she has a high school education, her work experience was limited to baby-sitting jobs.

Based on a work evaluation which was conducted at the hospital, Barbara was sent to Milwaukee to take a 12-week course which prepared her to become a nurse's assistant. She is now employed in a physician's office.

"Students are not the only factor, but they are a major one in rehabilitating patients," Pruitt explained. He feels that since Stout students have a technical background, their work is especially valuable. "Most students have an industrial education background," he said. This is valu-

able because students know tools and equipment, which could be used in vocational rehabilitation training. In addition, their background in education helps them evaluate patients.

At this time no specific skills are taught at the hospital. Most of the student's work centers on evaluation and counseling. However, Pruitt sees the possibility of more specific training in the future. A printing press was donated to the program by Stout's graphic arts department and training programs in that area may be established. Sewing is another area that might be considered for vocational training.

"We at the hospital could never purchase the services the students provide," said Elliot Crego, hospital administrator. "Many students come in with skills they have developed at work. They are experienced people," he added.

Crego pointed out that when Wisconsin's 35 county hospitals were founded in the 1870's, they were primarily custodial institutions and had no treatment facilities. "It was a no return situation," he said. However, with the advent of treatment, new theories and different practices, many of these hospitals now are engaged in rehabilitation. In Wisconsin 14 hospitals, including the one in Dunn County, are certified as treatment centers.

In view of this, the county will continue to expand its rehabilitation programs. Eventually a full-time therapist will be hired to add to the service students provide. In the meantime the work will continue through a cooperative effort between the University and the hospital. "It is a cooperative effort involving the entire hospital staff as well as the students for the betterment of the patients," Crego said.

# Stout Offers Flight Training Work

Teachers and students took to the air this summer in the first flight training program offered for credit by a Wisconsin University.

Located on the campus of Stout State University, the experimental program included a fully accredited ground school and an air school with 40 hours of flying time. Although the course work was open to anyone at the graduate and undergraduate level, its primary purpose was to give teachers a better background in aviation.

Joe Rinck, coordinator of the program, pointed out that the growth of the aviation industry has made it necessary to keep teachers and students better informed about the field. "Since aviation employs more people than any other industry in the United States, a University such as Stout should offer a program that will inform students at all levels of education about the industry," he stated.

Persons completing both the ground school and the air school should have the qualifications to pass the Federal Aviation Administration examination for a pilot's license, according to Rinck. The ground school was staffed by a certified instructor and the air school included the minimum air time required by the FAA.

Rinck feels that this approach

is the best method of teaching the various aspects of the aviation industry. "The main benefit of the program is it acquaints participants with all the ramifications connected with flying an airplane such as communications, weather, FAA regulations and navigation," he said. "The important thing is once they have studied in the flight and ground school they have a fairly good concept of what keeps an aircraft in the air and what moves aircraft throughout the world."

The flight school was composed of 21 students and six instructors. The two-credit course included basic skills in operating an airplane, use of radio and navigational equipment, maneuvers, and cross country and local flying.

The ground school, a three-credit course with 31 persons enrolled, dealt with basic flight information, cross country flight planning, instrumentation, weather and FAA regulations.

Rinck noted that the program was self supporting "for all practical purposes." Students enrolled in both the air and ground school paid fees totaling \$673. "This pays for the instructors, airplane rental, gas, and maintenance," Rinck said.

Although the program was offered on experimental basis this summer, Rinck expressed optimism

that in the future work might be offered by the University on a regular basis during the academic year.

"The state has had no institution that provides college level work for those who wish to teach aviation in primary or secondary schools," he said. "We feel that there's a real need here to provide teachers with adequate knowledge of aviation to inform the youth of this country on what's going on in the field of aviation. We feel Stout is helping to fill a void," he added.

Philip Ruehl, assistant dean of the School of Applied Science and Technology, said the University is studying the possibility of making flight training a regular academic program at Stout. However, no definite plans have been formulated.

"As I look to the future I see where Stout ought to provide this type of background and training for teachers," Ruehl said. "There are no certification requirements to teach aerospace, yet there are 13 high schools in Wisconsin that offer aviation courses."

He added, "It would seem that someone ought to be preparing teachers who are able to teach aviation courses in secondary education."

## Advisory Board Names Members

Three persons, including a Stout alumnus, have recently been appointed to the University's Board of Visitors. Donald MacGregor (BS 40) accepted the position to the advisory group. He is president of MacGregor Litho, Inc., Park Falls, Wis. Other new members are Donald K. Dean, executive vice-president of the Wisconsin Chapter of the Associated General Contractors of America; and Merced Bates, vice-president and director of the Betty Crocker Kitchens. The Board of Visitors consists of leaders in business, industry, labor and government.

# Students Act as Advisors

It's nothing new for freshmen university students to ask advice from upperclassmen. However, that practice is now officially sanctioned by Stout State University, under an unusual counseling program.

The program, entitled PASS (Program of Advisement for Stout Students), allows specially trained upperclassmen to take the place of faculty advisors in helping freshmen and transfer students set up their class schedules and develop study courses at the University. A student advisor is assigned to each dormitory on campus and an advisor is also available for commuting students.

Although advisors are chosen to represent the various major fields at Stout, each advisor is expected to be knowledgeable of all the majors at the University.

"Students relate best with students," explained Gerald Donley, coordinator of new student advisement. "Often students can relate problems to other students that they refuse to relate to faculty."

Donley also pointed out that by allowing upperclassmen to advise incoming students, faculty advisors are free to work with other students who have already selected their major fields. "Once a student selects his major, he is transferred to a faculty advisor from a particular academic field," he added.

Most students select their major within a year of entering the University. However, the PASS program does not end there. "The word PASS involves a total program including upper-class advisors," Donley stated. "Our goal is to identify one office where any student can come for answers in academic problems." He noted that this prevents students from having to go to several different offices when they need help.

Stout is the first state university to work with such a program and so far the results have been considered favorable. One student commented that most upperclassmen say they wish they had something like PASS when they were freshmen.

Student advisors also reap benefits from the program. They gain insights about working with people and some of them are now considering making counseling a career.

## WILE COMMENTS

**BY JACK WILE**  
**EXECUTIVE  
SECRETARY**

On page 11 of this Alumnus are announcements of a number of affairs for Stout alumni that are scheduled in October, November and December in Wisconsin, Minnesota, Illinois, and Louisiana. I hope that you will make it a point to participate in any of these that are near to you or that are appropriate for you to attend. What impresses me most about Stout get-togethers is that a Stout alumnus is almost always at ease with another Stout alumnus in a matter of a few minutes. So come join in a Stout reunion this fall! You'll enjoy it — I guarantee it!

The other day one of our alumnae stopped by the alumni office to "complain" about the fact that we "don't use all of the information from membership envelopes in the class notes department." She said that she knows a number of people "who have been filling these things out for years" and that "even trips around the world and promotions have been ignored."

As to our failure to use all of the information from the yellow membership envelopes, she's right, of course. We don't use all of the information on those envelopes. If we did, there wouldn't be room for any other articles in our present allotment of 12 pages for each issue of the Alumnus. The whole issue would be class notes. And we like to think that you want more information about Stout coming into your home than class notes.

The use of the information from membership envelopes in the Alumnus is really incidental to their primary purpose, and that is to keep

the alumni office informed about where our alumni are and what sort of career and personal life experiences they are having. We read every envelope that comes in, looking for the change in an alumnus' career or personal life that other alumni might want to know about. Those that have "news" value are used in class notes. We would consider it unfortunate to miss a trip around the world or a job change.

But just running reports of change doesn't recognize the Stout alumnus who faithfully reports his or her job and family affairs each year on the yellow envelope, even though there has been no significant change. Frankly, we consider this is a high priority problem.

We think we have a solution, and all we need is enough time and money to get it done. That is to publish a supplementary "class notes" periodically, entitled "Where Are They Now?" or some name like that, and to include the names and pertinent information sent in to us on membership envelopes and information sheets that we were not able to use in the Alumnus.

So "keep those envelopes coming in, folks," because we really do want the information that you are sending us, and we really are trying to improve our services.

But let's have some letters from you alumni about this. Do you think we should announce marriages and births in the Alumnus? Do you want supplementary "Where Are They Now?" class notes? What else would you like to read about? You tell us what you want, and we'll try to give it to you.

## A CHANGE AND A CHALLENGE

Challenges that are greater than ever before are greeting new freshmen entering college this year. A tight job market, expanding pools of knowledge and the University's growing role in society are making higher education's job increasingly important.

One of the 1,300 Stout freshmen facing these challenges is Joyce Emrich, a graduate of Pulaski High

School in Milwaukee. Joyce is enrolled in Stout's Home Economics Education program and plans to be a teacher after graduation.

To help meet the needs of freshmen such as Joyce, the University has an obligation to constantly examine its goals and evaluate its direction. New facilities, classroom space and equipment are being provided to serve the growing ranks of students. But even more important, a new learning environment is being shaped to create an atmosphere that is both conducive to study and relevant to life.

Entering college for the first time is a very special experience. Most Stout alumni can recall this experience as the beginning of an important time in their life, although many will remember a smaller campus and a less hectic pace.

As a means of helping freshmen like Joyce adjust to college life, Stout holds a number of orientation sessions for new students and their parents. The sessions allow students to select their fall classes and at the same time get acquainted with the campus.

For Joyce this meant touring the campus with her parents, registering for course work, having her identification card picture taken, visiting a dormitory, filling out forms, and of course meeting new friends.

# Class Notes

'14

Still active at age 76, **WILLIAM D. MAYO** is enjoying retired life. He still bowls twice a week and flies frequently visiting relatives.

**HOWARD A. CAMPION** and his wife are doing considerable traveling to Chile, the Philippines, Australia and Belgium, in connection with his work. He is an educational consultant and resides in Los Angeles.

'18

Because she has served the community in many areas, **ELEANOR DOUBLE WATERMAN** was recently named "Beloit Booster of the Week," and was awarded full honors. She has been very active in civic and church affairs alike. Mrs. Waterman has served on the Red Cross Board, Beloit Board of Education, and has been a substitute and special teacher. An active Republican, she currently serves as election clerk.

'26

**ALBERT J. HANZEL** has retired after 44 years of teaching. He has been associated with the Department of Education, St. Paul. Traveling and fishing will take up most of his time now.

'31

Since retiring July 1, the **H. H. BRAMSTEDT** family is making their home in Fond du Lac. Formerly of Chicago, Ill., Bramstedt was employed

by Kraft Foods, Inc. as a designer-engineer.

'34

A University of Wisconsin career that began in 1941 ended this summer when **JOHN J. GOLDGRUBER** retired. A native of Port Washington, he was professor of educational administration at the University. His record shows service as state chairman of the North Central Association of Colleges and Secondary Schools and many other professional organizations. His retirement plans include a visit with his married children in Washington, D. C. and Birmingham, Mich.

'40

**JAMES BREITZMAN**, executive vice-president of The First National Bank in Menomonie, was recently appointed as the alumni representative to the Policy Board of the Student Center for a period of one year. His appointment was based on his representation of the community of Menomonie and he is also the parent of two graduates from the University.

'44

After spending 22 years with the Detroit Board of Education, **GORDON OASS** is now a trade and industry coordinator at Van Dyke Public School, Warren, Mich.

'50

**HERBERT MEISNER** (MS 57), an industrial arts teacher at William Horlick High School, Racine, was recently promoted to chairman of his department.

Meisner has been associated with the Unified School District since 1963.

'51

**W. WARREN BARBERG**, president of the Stout State University Foundation, Inc., received the A. Jack Nussbaum Man of the Year Award for 1970 from the Wisconsin Association of Life Underwriters.

Having completed four years as principal of William Horlick High School, Racine, **PETER P. SCHELLINGER** is now teaching industrial arts at Starbuck. Before that, he was an administrative assistant there for four years.

'54

As of June 1, **HERBERT N. PRINGLE, JR.** (MS 56) is employed by Consumers Power of Jackson, Mich. He is a cost control administrator for a new nuclear plant construction at Midland, Mich. The Pringle family had been residing at Idaho Falls, Ida.

**JOE STEBLY**, Franklin Junior High teacher at Janesville, retired this past summer as the Pork Barbecue King of Wisconsin—at events in New Glarus. Contestants for this annual contest are judged on pork cookery, showmanship and the final prepared product. Stebly teaches industrial arts to 8th and 9th graders at Franklin.

'56

**CAROL LYNNE SCHILSTRA SOR-ENSON**, of Ft. Collins, Colo., received a Master of Arts degree from the University of Northern Colorado, Greeley, in May.

A 50-year reunion of the class of 1920 was held on campus, June 22. Included in the reunion were the classes of 1919 and 1921, plus husbands and wives. Pictured here from left to right are: Dorothy Williams Melby ('31); E. R. Melby ('20), Milwaukee; Mrs. Leo Jenkins; Leo E. Jenkins ('20), La Crosse; Mae E. Lampert ('20), St. Paul; Bess Graham Sauer ('20), Milwaukee; Jack Wile, Alumni Director; Helen Cunningham Merlo ('21), Kaukauna, Wis.; Mrs. Althea Patteson, guest; Una Mae Krebs

Hansen ('20), Menomonie; Leona Sullivan Dougherty ('20), Perham, Minn.; President William J. Micheels ('32), Menomonie; Anthony A. Klink ('21), Detroit; Esther Micheels Lyders ('20), Fremont, Neb.; Fred A. Steinke ('20); Mrs. Fred A. Steinke, Albany, N. Y.; Ray F. Kranzusch ('26), Faculty Emeritus, Menomonie; Viola Hahn Hoffman ('20), Muscatine, Ia.; Mrs. Alf M. Sorenson; Alph M. Sorenson ('20), La Crosse.

**LILLIAN SMITH HALVERSON (MS 70)** is teaching foods and nutrition at West Virginia Wesleyan College at Buckhannon.

'58

**PAUL M. PAULSON (MS 61)**, instructor of industrial technology at Illinois State University, left for East Pakistan, July 15, to begin an eight-week assignment for AID, a program sponsored by the Institute of International Education of New York. Paulson is serving as a welding consultant, working with teachers in polytechnic schools in the Chittagong area of East Pakistan. Paulson has been a member of the ISU faculty since September, 1966, having previously taught in the public schools at Tucson, Ariz.

**JAY D. LELAND (MS 66)**, former industrial arts teacher and administrative assistant, is teaching industrial arts at Sheboygan South High School.

**DAVID CLAFLIN**, Waukesha, is an instructor and department coordinator at Dwight D. Eisenhower High, a new school in New Berlin, Wis. He was formerly associated with New Berlin High.

'60

A Racine woman, **MARILYN GRENIER**, has been named director for the Villageaires, Menomonee Falls Chapter of Sweet Adelines, Inc., a women's barbershop singing group. The new director has a long history of barbershop singing behind her. She is a former teacher in the Racine school system.

'61

Captain **EUGENE SMIGELSKI**, Milwaukee, is a member of the Perrin AFB, Tex. unit that has been selected as the best aircraft maintenance organization in the U. S. Air Force. It marks the first time an Aerospace Defense Command unit has won the stiff Air Force-wide competition for the annual award.

'62

Among the recent conferees of an MSE degree at Northern Illinois University was **DAVID JON OSWALD** of Itasca, Ill.

'63

Captain **PAUL C. CONNORS**, Antigo, Wis., has received the U.S. Air Force Commendation Medal at Phu Cat AB, Vietnam. Capt. Connors, a transport pilot, was decorated for meritorious service while assigned at K. I. Sawyer AFB, Mich.

**NANCY N. THOMPSON (MS 69)**, St. Croix County Extension home economist, was promoted recently to the rank of assistant professor with tenure by the University of Wisconsin Board of Regents. She has headed many county-wide projects since she became involved in extension work. Mrs. Thompson is also active in state and national home economics groups.

Receiving an MSE degree recently from Northern Illinois University, DeKalb, was **GLORIA JOANN LORENZ**, of Buffalo Grove, Ill.

'64

Returning to her duties as administrative dietitian at North Memorial Hospital after a month's vacation in Europe is **CAROL ANN KRUEGER**, Minneapolis.

A Master of Arts degree was awarded to **JEAN IRENE LOW**, of Faribault, Minn., at commencement exercises at Iowa State University in Ames, May 29.

'67

**JOANNE AHRNDT** of Racine and home economics teacher in the Wauwatosa school system, spent eight and one-half weeks traveling through Europe this past summer.

**KENNETH E. HOPFENSBERGER** has joined the industrial engineering department of Consolidated Papers, Inc., as an industrial engineer. He had been employed by another Wisconsin manufacturing firm.

**DEAN RAYMOND HORTON** recently received a MSE degree from Northern Illinois University, DeKalb. He resides in Elgin, Ill.

'68

**DALE ROBLE** was one of the summer artists in residence at Edgewood Orchard Galleries at Fish Creek, Wis. This fall he is teaching pottery, sculpture and metal arts half days at Marshfield Senior High School where he and his wife, Karleen, reside.

## Deaths

'12

Miss **GERTRUDE ANDEREGG**, 80, July 4, 1970, in Algoma, Wis. Having taught for 39 years, she retired in 1953. She was a member emeritus of American and Wisconsin Home Economics associations.

**ROBERT L. GUNN**, May 25, 1969, in Eau Claire. He was assistant professor of engineering drafting at WSU-Eau Claire from 1946 until his death. Surviving are his wife Lenore and three children.

'35

**ERLING F. SWENSEN**, April 13, 1969, after a short illness. He is survived by his wife, Myrtle.

'54

**GERALD N. HENDERSON**, Oct. 13, 1969, in Sacramento, Calif. At the time of his death he was a mechanical drawing instructor at Cordova Senior High School in Rancho Cordova. Survivors include his wife Clara and three children.

Distinguished alumni and a distinguished teacher were honored at spring commencement exercises this year. Receiving distinguished alumni awards were **Grace Laudon Ostenso (54)**, whose teaching and research have given much to the field of food management; and **Maurice J. Nelson (35)**, a respected and devoted educator who spent many years at Mankato State College. Nelson, who is still in good health, appeared in a wheel chair only as a temporary measure. The Johnson Foundation Distinguished Teacher Award was presented to **John Sabol**, an associate professor in social science at Stout. Pictured here from left to right are University President **William J. Micheels**, Mrs. Ostenso, Nelson, Alumni Vice President **Robert A. Erickson** and Sabol.

## Little 'Devils

'56

A daughter, Christyl Lea, March 23, 1970, to Mr. and Mrs. William Marsh (AVIS JEAN MERTES), 4525 W. Dean Rd., Brown Deer, Wis. Mrs. Marsh is a distributor for Viviane Woodard Cosmetics.

'57

A son, Douglass, Jan. 26, 1970, to Mr. and Mrs. FRANK R. MOORE, 115 Dunbar, Waukesha, Wis. He is vocational supervisor at the Wisconsin School for Boys.

'59

A son, Larry, April 25, 1970, to Mr. and Mrs. Elmer L. Marting (CAROL HEINS), Monona, Ia.

'60

A daughter, Carolyn Ellen, April 5, 1970, to Mr. and Mrs. Francis Coulson (MARY ELLEN KINNEY), Route 1, Maiden Rock, Wis.

A son, Todd Harlan, Oct. 6, 1969, to Mr. and Mrs. HARLAN H. HOFFBECK, Route 1, Custer, Wis. He is a TV coordinator at WSU-Stevens Point.

'61

A daughter, Kristen, July 10, 1969, to ROBERT and RITA BOHMAN DANIELSON, Route 1, Greentree Dr., Stevens Point, Wis. He is vocational coordinator at Cooperative Education Service Agency #7.

'62

A daughter, Necole Marie, April 12, 1970, to Mr. and Mrs. William F. Martin (JULIANN THOMPSON), 19425 Cheshire St., Rialto, Calif. She demonstrates electric equipment in design kitchens at the Southern California Edison Company.

A daughter, Sharon Nicole, Nov. 18, 1969, to Mrs. and Mrs. Edward Zielinski (PAT CRON), 228—5th St. S., Virginia, Minn. She is a member of the National Panel of Consultants on Vocational Education Personnel Department.

'63

A daughter, Amy Lee, March 6, 1970, to GARY (MS 64) and SHARON MUNSON (BS 64), 130 East Frances St., Appleton, Wis. He is the drafting and design department chairman at Fox Valley Technical Institute.

A daughter, Sara, Sept. 9, 1969, to Mr. and Mrs. Robert Alderden (KAREN JEAN DEWALD), 364 Chief Kuno Tr., Fox Lake, Wis. She is a part-time home economics teacher at the Waupun High School.

'64

A daughter, Bethany Anne, April 21, 1970, to CHARLES (MS 68) and KAREN NIELSEN LORENCE (BS 65, MS 69), 2125 Center St., Northbrook, Ill. He is a graphic arts instructor at Glenbrook South High School, Glenview, Ill.

A son, Paul Ronald, May 9, 1970, to Mr. and Mrs. Ronald Lemke (CAROL JEAN PARRISH), 215 W. Main, Platteville, Wis.

'65

A daughter, Molly Kay, March 26, 1970, to Mr. and Mrs. Robert Anderson (CASSIE HELBIG), 2608 Christmas Run, Wooster, Ohio.

'66

A daughter, Jennifer Ann, Sept. 15, 1969, to Mr. and Mrs. Jay Harris (SUSAN GUSTAFSON), 3316 Mildred Way, Wayne, Minn.

A son, Scott Richard, Sept. 29, 1969, to RICHARD and PATRICIA KENYON GRASSE, 319 Raven Ave., Wausau, Wis. He is a graphic arts instructor at North Central Technical Institute.

A son, William Earl, Oct. 29, 1969, to GAYLORD (MS 67) and LINDA COURT HERBST, 800 S. Main St., Seymour, Wis. Herbst is head football and track coach and guidance counselor at Seymour Community Schools.

A daughter, Stephanie, Dec. 16, 1969, to Mr. and Mrs. DANIEL L. LARSON, 1820 Birch St., Apt. #4, White Bear Lake, Minn. He is a systems engineer at Stockwell Equipment Company.

'68

A son, Matthew David, June 5, 1970, to DAVID J. and SHIRLEY FREDRICH BONOMO, (BS 67), 214 Waverly Court, Carpentersville, Ill. He is an industrial arts instructor at Crown High School.

A daughter, Jennifer Ann, Oct. 31, 1969, to Mr. and Mrs. Dean Zickert (ANN RUDE), 4937 Park Ave., Minneapolis.

'69

A daughter, Nancy, June 10, 1970, to FRED and YU YING CHEN PETRIE, 308—19th Ave. W., Menomonie. He is the Dunn County Undersheriff.

A son, Thomas Richard, April 30, 1970, to RICHARD and JANICE COWLES FELDKAMP, 4103—12th St., East Moline, Ill. He is a vocational electronics instructor at the United Township High School.

A daughter, Dawn Lynne, Aug. 26, 1969, to Mr. and Mrs. HAROLD N. ARNESON, 8873 S. Oak Park Dr., Oak Creek, Wis. He is a development engineer at General Electric.

A son, Brian Joseph, May 9, 1970, to Mr. and Mrs. JOSEPH BENKOWSKI, 115 E. Roosevelt St., Appleton, Wis. He is teaching at the Fox Valley Technical Institute in Appleton and Oshkosh.

### THE STOUT ALUMNUS

The Stout Alumnus is the official publication of the Alumni Association of Stout State University, Menomonie, Wis. It is published quarterly and entered at the post office at Menomonie, Wis., as third class matter.

Joseph D. Koch, President  
Robert Erickson, Vice-Pres.  
Jack Wile, Executive Sec.  
John K. Enger, Editor

Robert Baker, Art Work

Mae E. Lampert ('20) was presented the President's Club Award by University President William J. Micheels on behalf of the Stout Foundation during the 50-year reunion of the class of 1920. The reunion was held on campus June 22. Miss Lampert contributed \$5,000 to the Stout State University Foundation. The money will be used for scholarships with the first award to be made this fall. She also contributed a similar amount to the Barron County Campus.

## Marriages

'62

Eileen Helgeson to GORDON E. LAIB, June, 1970, in Willmar, Minn. At home in Edgewater, Colo.

'63

MARTHA ELEANOR STOELB to Francis Berles, June 6, 1970, in Grand Rapids, Mich. The new Mrs. Berles is a buyer for the Herpolzheimer Department Store in Grand Rapids.

'64

JOAN PROCHNOW to A. O. Keup, June 14, 1970, in Elkhorn, Wis. The bride is an extension home economist for Walworth County.

'65

CONNIE A. HANSON to Douglas Farney, June 6, 1970. Residing in Phoenix, Ariz.

'66

PATRICIA PAYNE to Jeffrey Kirby, May 16, 1970, in Sheboygan Falls, Wis. She is employed by the Los Angeles Health Department as a public health nutritionist.

PAULA PLANSKY to Don Wilcox, Sept. 26, 1969, in Bellingham, Wash. The bride teaches Home and Family Life Education in Lynden, Wash.

# Come Join A Stout Reunion This Fall

## EAU CLAIRE

During NWEA Convention: A reception from 9 a. m. to 3 p. m. on Thursday, Oct. 8, in Room 138 of Eau Claire's Memorial High School, for all alumni attending the NWEA meeting. Come—have some coffee and some real tasty "goodies" from the Stout kitchens.

## CHICAGO

For all alumni in Chicago-Elgin-Joliet area: A potluck on Saturday, Oct. 10, at the Robinswood Development Club House in Streamwood, Ill. Come and share a Stout reunion with us. For more details as to exact time (and a map), call Mr. or Mrs. Bruce Klein (both '66) at 312/837-1332.

## MINNEAPOLIS

For all alumni in Twin Cities area, plus those at the MEA Convention: A reception from 4 to 8 p. m. on Thursday, Oct. 22, in the Normandy Room of the Normandy Motor Inn in Minneapolis. Dutch treat cocktails, plus hors d'oeuvres. No reservations needed. There is a large parking lot next to the Normandy that begins to open up in late afternoon, so

come on in and say "hello." Hosts are Audrey and Jim Bailey (both '48).

## MENOMONIE

During Homecoming on Saturday, Oct. 24:

\*Reunion Dinner—For classes of 1965, 1960 and 1945, with the classes of 1966, 1964, 1961, 1959, 1946, and 1944 also invited to attend—6:45 p.m., Saturday, Oct. 24, at The Coachman (25 miles west of Menomonie)—about \$4 per plate for dinner. Cocktails at 5:30 p.m. with an informal program during dinner, followed by dancing, conversation and fun til 1 a.m. Local reunion committee: "Jimmy" Quilling ('45), "Pooky" Albrecht ('60), and John Zuerlein ('65). Write the alumni office at Stout for reservations and/or more information.

\*Alumni Coffee Hour—After Homecoming football game with Stevens Point Saturday afternoon—all alumni, guests, students and faculty invited—from 4:30 to 5:30 p.m. in the Fieldhouse.

\*Annual Meeting of Alumni Association—All alumni invited—10 a.m., Saturday, Oct. 24, in the Alumni Room of the Student Center.

## MILWAUKEE

For all alumni in Milwaukee area, plus those at the WEA Convention: A reception from 3 to 6 p. m. on Thursday, Nov. 5, in Suites A and B at the Red Carpet Inn (across from Mitchell Field). Dutch treat cocktails, plus coffee and hors d'oeuvres. No reservations needed, and don't hesitate to drive—there's plenty of parking. Come say "hello" to President and Mrs. Micheels and many other Stout staff members.

## NEW ORLEANS

During AVA Convention for all alumni in New Orleans area, plus Stout delegates to the AVA Convention: A reception from 5 to 7 p. m. on Saturday, Dec. 5, in one of the convention hotels (we asked for the Roosevelt—verify location in convention program or by writing Stout alumni office in November). Come say "hello" to host Orville Nelson ('56), John Jarvis ('36), Herb Anderson ('44), Bob and Ann Rudiger ('48) ('43), and Harold Halfin ('54).

# Sports

Twenty-four lettermen greeted Head Coach Sten Pierce at the Blue Devils' opening practice session. Pierce, an assistant coach for the last four years, is guiding the Blue Devils for the first time as head coach.

Heading the list of returnees is Nick Misch, a 205 pound senior running back from Blair, Wis., who was twice named "Player of the Week" for his last season's efforts. Misch averaged 4.6 yards per carry and had a total offense of 485 yards for the year.

Three top defensive men are also back. Reggie Holmes, a senior defensive corner from Alliance, Ohio, whose size, strength and speed, Pierce feels, will make him one of the best in the league for 1970. Pierce is also counting on Ron Robinson, a 6 foot junior defensive

Misch

Holmes

back from St. Louis, Mo., and Mike Tyskiewicz, a 5-11, 210 pound senior defensive end, who was an all-state pick at D.C. Everest High School, Schofield, Wis. Pierce labels this trio as strong competitors who do not like to lose.

The Blue Devils suffered key senior losses this past year which greatly weakened their interior line. Perhaps the two greatest losses came with the graduation of Gary Inskeep and Jerry Hermann, both outstanding defensive and offensive players. Inskeep, a rugged 6-4, 250 pound tackle, was drafted in the 12th round by the New York Giants and is now a member of their training camp.

Hermann, an equally tough tackle, will see semipro action this

Robinson

Tyskiewicz

fall with the Sheboygan Redwings. He will also be a graduate assistant under Pierce, working with the freshmen and junior varsity football program. Two other senior losses, Duane Stevens, a guard, and Roger Zell, last year's most valuable player at linebacker, are also playing for the Redwings. To compensate for a lighter line this year, the Blue Devils are planning to use more deception in the backfield.

Pierce is looking forward to two transfer students, Jeff Towner and Joel Blitzke, to bolster the squad. Towner, a 6-3, 245 pound junior defensive tackle, played his prep ball at Plymouth High School, Plymouth, Wis., while Blitzke, a 6-2,

225 pound sophomore linebacker, was named all-state at Fond du Lac High School, Fond du Lac, Wis. "Both are new to our league," said Pierce. "But both are experienced, hard-hitting hustling all-around players."

Coach Pierce hopes to see improvement over last season's 3-6 record. "We are taking a realistic look at our conference chances," said Pierce. "We are shooting for a .500 season. The goal of our team is to become an upper division football club that is a threat to everyone we play."

Sixty-five players are out to make the squad.
